Trial Handbook

Spring 2019

by Kent Sinclair

Trial Handbook is the product of Professor Kent Sinclair's knowledge and experience as a litigator, judge, law professor, and legal skills trainer.

Volume 1 contains chapters on each phase of a trial—from pretrial planning and opening statements, to the presentation of proof, to closing arguments and post-trial motions. The volume also provides the text of each Federal Rule of Evidence, along with summary discussions, legislative history notes, and bibliographic references, updated in this release with the **most recent scholarship**.

Volume 2, the Case Authority, includes **thousands of case summaries** of decisions under the Federal Rules of Evidence from all jurisdictions, updated in this release with the **most recent district and circuit court decisions from the past year**.

The entire contents of both volumes of *Trial Handbook* are also available on the companion **USB flash drive**—a searchable, electronic version of the book in a convenient, portable format.

Thank you for purchasing *Trial Handbook*. If you have questions about this product, or would like information on our other products, please contact customer service at info@pli.edu or at (800) 260-4PLI.
