Now more than ever, it is imperative that employers and employment law practitioners understand the legal implications of a wide range of workplace actions. Throughout 2012, employers continued to tighten their fiscal belts for fear of another market dip. This uncertainty has only added fuel to already-hot litigation fires, making it imperative for employers and employment law practitioners to understand the legal implications of a wide range of workplace actions. *Employment Law Yearbook 2013* provides a review of developments in the law from the past year, including case decisions, legislative changes, government agency actions, and other events of interest to employers. Authored by Orrick, Herrington & Sutcliffe's Global Employment Law Practice Group, *Employment Law Yearbook 2013* provides practical steps employers can take to minimize their risk and comply with the law.
